CHIANGMAI,

THAILAND

INTERN UX UI DESIGN

ABOUT ME

FOCUSED ON UX/UI DESIGN, PROFICIENT IN FIGMA FOR CREATING USER CENTERED INTERFACES AND PROTOTYPES, WITH A STRONG UNDERSTANDING OF USABILITY AND VISUAL PERCEPTION. EXPERIENCED IN USING ADOBE PHOTOSHOP AND ILLUSTRATOR TO SUPPORT UX/UI DESIGN.

WORK HISTORY

2022 - FREELANCE VIDEO EDITOR

AND CONTENT ASSISTANT

YOUTUBE CHANNEL

[HTTPS://WWW.YOUTUBE.COM/@MELDAINNE](https://www.youtube.com/@MELDAINNE)

- EDITED VIDEO CONTENT TO MATCH THE CREATOR'S STYLE AND AUDIENCE ENGAGEMENT.
- FILMED VIDEO CONTENT AND MANAGED SCENE COMPOSITION.
- CREATED AND ORGANIZED STORYBOARDS TO STRUCTURE EACH EPISODE.
- ADJUSTED AUDIO, PACING, AND VISUAL FLOW TO ENHANCE VIEWER EXPERIENCE.

- FREELANCE GRAPHIC DESIGNER

- DESIGNED GRAPHIC MATERIALS FOR RESTAURANTS INCLUDING VINYL BANNERS, MENUS, AND PROMOTIONAL MEDIA.
- DEVELOPED VISUAL CONCEPTS ALIGNED WITH BRAND IDENTITY.
- USED PHOTOSHOP, ILLUSTRATOR, AND CANVA IN ALL DESIGN PROJECTS.

2025 - MANAGER SECRETARY

- FANPAGHE
[HTTPS://WWW.FACEBOOK.COM/THAILANDSTRUCTURALSTEEL SOCIETY](https://www.facebook.com/THAILANDSTRUCTURALSTEEL SOCIETY)
- SUPPORTED THE ASSOCIATION MANAGER WITH ADMINISTRATIVE AND OPERATIONAL TASKS.
- DESIGNED AND PREPARED OFFICIAL DOCUMENTS, MEETING MATERIALS, AND SEMINAR PAPERS.
- MANAGED AND UPDATED THE ASSOCIATION'S FACEBOOK PAGE AND PUBLIC COMMUNICATIONS.
- ORGANIZED ANNUAL GENERAL MEETINGS, MONTHLY MEETINGS, AND ACADEMIC SEMINARS.
- COORDINATED WITH COMMITTEE MEMBERS, ASSOCIATION MEMBERS, AND EXTERNAL ORGANIZATIONS.

EDUCATION

2017 - 2023

- DARA ACADEMY, CHIANG MAI
- SCIENCE-MATHEMATICS PROGRAM
- HIGH SCHOOL DIPLOMA (COMPLETED)

2023 - PRESENT

- CHIANG MAI UNIVERSITY
- DIGITAL GAME, COLLEGE OF ARTS, MEDIA AND TECHNOLOGY (IN PROGRESS)

GPAX 3.33 / 4.00

DESIGN THE SKILL-SORTING BUTTONS ON THE SKILL SCREEN WITHIN THE GAME, FOCUSING ON THE LAYOUT OF SKILL POSITIONS AND SEPARATING UI COMPONENTS TO IMPROVE USABILITY AND CONVENIENCE.

DESIGN AN INTERACTIVE LOGIN SCREEN USING A FIGMA PROTOTYPE, SUPPORTING SCREEN SCROLLING AND BUTTON INTERACTIONS TO NAVIGATE BETWEEN PAGES ACCORDING TO THE DEFINED USER FLOW. THIS ALLOWS FOR SIMULATING REAL USER EXPERIENCES AND TESTING USER INTERACTIONS BEFORE DEVELOPMENT.

DRAFT OF THE DESIGN WORK CONSISTS OF 2 DESIGN PATTERNS.

Example Game Play Screen Design

This design process begins by gathering at least five reference images to define the design direction and create a mood board that controls the color tone and overall mood. The layout is then organized into components, considering font sizes, color usage, and the application of Auto Layout. The design is set to a 16:9 aspect ratio, and the file is named according to the specified naming convention.

ITEMS SCREEN

GAMEPLAY SCREEN

Design UI components based on the given requirements while preserving the original structure and functionality. Then, refine the visual style such as imagery, lighting, shadows, and transparency to harmonize with the game's atmosphere, ensuring that the UI feels like an integrated part of the game world rather than an overlay on top of the scene. At the same time, maintain usability and visual hierarchy to avoid negatively impacting the user experience.

- The design screens separate different UI components based on their functions. For example :
- The Home screen emphasizes the game title through a text-based logo
- While the Items screen features a grid-based layout that organizes item slots with clear proportions and spacing for better clarity and usability.

UX UI DESIGN

QR CODE FOR SEE MORE WORK

Able to create a Figma prototype that supports real scene transitions and interactive UI, allowing for UX evaluation and user flow testing.

Hover

Users can interact with the Login component; when hovering the mouse, its state changes according to the designed prototype, demonstrating the use of micro-interactions and visual feedback.

Click

After clicking Login, the system transitions through two scenes according to the defined user flow, simulating a real user experience before development.

Drag / Scroll

Design a component grid that allows users to click and hold the left mouse button to scroll up and down, enabling testing of user behavior and ease of information access.

LAY OUT

RESULT WHEN DISPLAYED ON MOBILE SCREEN

- Component separation to improve usability
- Design the UI under a Christmas theme to create a seasonal atmosphere and test real user interactions through an interactive prototype.

UX UI DESIGN

TRY BEFORE YOU BUY

Design UX/UI for try-before-you-buy playable ads, using the Peak-End Rule to control player emotions and fast, responsive UI feedback to enhance engagement quality and increase the installation rate.

CAN PLAY ON MOBILE

DESIGN CHARECTER

TILE MAP ROAD AND GLASS

DESIGN OBJECTS 2.5D TOP-DOWN

UI DESIGN RESTRAT AND PLAY

- Design 2.5D top-down characters and assets that allow players to quickly understand movement and make decisions within 15 seconds.
- Use lighting to guide the player's attention across the foreground and gameplay areas, while designing backgrounds that support interaction with the character.
- Define color schemes and contrast to control gameplay pacing, and use color to communicate speed and risk in short-session gameplay across all mobile devices.
- Design camera angles and tile maps that support strong UX. Place roads, vehicles, and characters on the tile map to control movement flow and adjust the game pace to increase with score progression, ensuring players can clearly anticipate and understand upcoming situations.

DESIGN SEMINAR ANNOUNCEMENTS FOR CONFERENCE PARTICIPATION ON BEHALF OF THE THAI STRUCTURAL STEEL ASSOCIATION

GAME DESIGN

LIGHTING MATERIAL BLUEPRINT

COMPOSITION USING POST PROCESS
VOLUME, WITH POINT LIGHTS
DESIGNED AS HOUSE LIGHTING TO
ENHANCE REALISM AND CREATE
ATMOSPHERE.

*DESIGN ROOMS, BUILDINGS, AND HOUSES BASED ON THE
CHARACTER'S SCALE TO ENSURE PROPER PROPORTIONS IN THE
ENVIRONMENT.*

CREATE CITY SCENES BY PLANNING BUILDING AND URBAN
LAYOUTS, INCLUDING INTERIOR DESIGN, IN A SYSTEMATIC WAY.
EMPHASIZE LIGHTING AND COLOR COMPOSITION TO ESTABLISH
THE APPROPRIATE ATMOSPHERE, AND SELECT AND ADAPT
ASSETS TO MATCH THE SCENE'S SCALE AND STYLE.
DEMONSTRATE AN UNDERSTANDING OF CORE COMPONENTS
SUCH AS LIGHTING, MATERIALS, AND BASIC BLUEPRINTS.

DEVELOPED A STORY-DRIVEN HORROR GAME PROJECT, CONTRIBUTING TO GAME DESIGN IDEATION, LEVEL LAYOUT, AND THE CREATION OF IN-GAME REGIONS. DESIGNED AND INTEGRATED GAMEPLAY MECHANICS IN THE FORM OF PUZZLE-BASED INTERACTIONS, AND PRODUCED A CINEMATIC OPENING SCENE TO INTRODUCE THE GAME.

[LINK VIDEO FOR WATCHING](#)

DESIGNED A LINEAR GAMEPLAY EXPERIENCE THAT TELLS THE STORY THROUGH EXPLORATION AND READING IN-GAME NOTES ON A MYSTERIOUS ISLAND. USED BLUEPRINTS TO CONTROL GAME SYSTEMS, DESIGNED MAPS AND PUZZLES TO DRIVE THE NARRATIVE FORWARD, AND SELECTED BGM, SOUND EFFECTS, AND CINEMATICS TO CREATE ATMOSPHERE AND ENHANCE THE SENSE OF HORROR.

CHARECTOR

GAME
DESIGN
EVIOMENT

PORTAL GATE

MAP COMPOSITION
AND LAYOUT DESIGN

DESIGNED A MAP WITH FOUR DISTINCT REGIONS WITHIN A SINGLE ENVIRONMENT, USING PORTAL GATES TO TRANSITION BETWEEN THE DIFFERENT DESIGNED ISLANDS.

ROCKMAN MECHANIC

DESIGNED LEVEL LAYOUTS WITHIN A SINGLE STAGE, CLEARLY COMMUNICATING DIFFICULTY THROUGH COLOR CUES—FOR EXAMPLE, COOL TONES REPRESENT EASIER SECTIONS WITH FEWER OBSTACLES, SERVING AS AN INTRODUCTION TO CORE GAME MECHANICS. IMPLEMENTED WIDGET POP-UPS FOR BASIC TUTORIALS, AND STRUCTURED PROGRESSION SO PLAYERS MUST PASS THROUGH A PORTAL GATE TO COMPLETE THE GAME.

ISLAND DESIGN

IMPLEMENTED SAVE CHECKPOINTS SO THAT WHEN THE CHARACTER DIES, THE PLAYER RESPAWNS AT THE MOST RECENT SAVE POINT, REDUCING FRUSTRATION AND PREVENTING THE GAMEPLAY FROM FEELING OVERLY DIFFICULT.

GAME ARTIES

CHARACTER & ENEMY DESIGN

SPRITE SHEET 2D AND PIXLE ART

DESIGN TOOLS IS :
ADOBE PHOTOSHOP
ADOBE ILLUSTRATOR

CHARACTER DESIGN WORK ACROSS VARIOUS GAME PROJECTS, FOCUSING ON DEFINING APPEARANCE, PERSONALITY, AND MOVEMENT STYLE TO ALIGN WITH THE GAME WORLD AND NARRATIVE CONCEPT. EMPHASIS IS PLACED ON CONVEYING CHARACTER IDENTITY THROUGH VISUALS AND ANIMATION RATHER THAN TEXT-BASED EXPLANATIONS.

THE MAIN CHARACTER AND ENEMIES ARE DESIGNED WITH A FUN, VIBRANT, AND EASY TO UNDERSTAND STYLE. THE MAIN CHARACTER FEATURES COMPLETE MOVEMENT ANIMATIONS WALKING, RUNNING, AND JUMPING RESULTING IN SMOOTH AND NATURAL CONTROLS.

FIVE ENEMY TYPES ARE DESIGNED WITH CLEARLY DISTINCT APPEARANCES, COLOR SCHEMES, AND MOVEMENT BEHAVIORS, ALLOWING PLAYERS TO INSTANTLY RECOGNIZE AND DIFFERENTIATE EACH ENEMY'S ROLE.

THE MAIN CHARACTER IS DESIGNED WITH A STRONG FOCUS ON FACIAL DETAILS, AND A SPRITE SHEET IS CREATED TO SUPPORT MOVEMENT ANIMATIONS AND CONVERSATIONAL EXPRESSIONS BASED ON THE STORYBOARD.

THE FEMALE CHARACTER IS DESIGNED IN A 2D TOP-DOWN VIEW, CAPABLE OF MOVING IN FOUR DIRECTIONS: LEFT, RIGHT, UP, AND DOWN. A SPRITE SHEET IS CREATED TO INCLUDE BOTH WALKING AND IDLE ANIMATIONS.
